

Network Spinal Analysis (NSA) Consent Form

It has been explained to my satisfaction, and I understand that the care offered at this office is not a form of, or replacement for, the diagnosis or treatment of any symptom, disease, or malady. Instead, it is a form of wellness care and self education that empowers my connection with my bodymind and develops new strategies for spinal and nervous system integrity and wellness. It develops new capacities in my body for the identification of, spontaneous release of, and redirection of tension, including those that are unique to NSA care. It is common for people receiving NSA care to breathe more deeply and more fully, engaging the spine with their respiration, to spontaneously adapt postures that release or redistribute tension, to bust stress, and to experience more of their inner life energy. I understand it is common to experience a wider range of motion and emotion during care. It is common, as care progresses, to find new options in the body and in life, which often lead to significant life changes.

This form of care is NOT suggested for those individuals who wish to remove a symptom or condition without the occurrence of other fundamental changes in their lives. The care in this office often promotes significant changes in health choices, lifestyle, experience of the bodymind, emotion, and consciousness.

Rather than attempting to simply return me to my previous state minus a symptom, this chiropractor instead chooses to help me achieve new levels of wellness and life potential that I may never have had before.

Although in this office we seek to help you develop new strategies for wellness and spinal and nerve system integrity, as a chiropractor the sole condition of concern is that of the vertebral subluxation. Our insurance carrier requires that the following information be given to you and signed by you prior to commencing care.

In Network Care, we categorize these subluxations into two categories, a structural segmental distortion and a spinal cord/nerve elongation or stretching. Through the gentle force applications at the spine to enhance spinal and nerve system integrity, subluxations are corrected. This is the only condition that we address in our office.

The only condition we offer to diagnose and correct is the vertebral subluxation and loss of spinal and neural integrity in relationship to this. We do not offer to diagnose or treat any other condition, disease, or symptom. If during the course of our spinal assessment/examination we encounter non chiropractic or unusual findings, we will advise you of this. If you desire advise on further diagnosis or treatment of this condition, situation or circumstance, we will recommend that you seek the services of another health care provider whose practice is geared towards such differential diagnosis and treatment.

I have read, or have had read to me, the CONSENT TO RECEIVE NETWORK SPINAL ANALYSIS TM (NSA) CARE and understand that the care in this office is different from what many consumers may expect from chiropractors practicing manipulative therapy. I agree to receive care, which consists of or includes NSA care and wellness education. I understand that I am not passive in this process, but that I am an active participant in my care and in my healing.
